THE MINISTER OF STATE OF THE MINISTRY OF STEEL (SHRI BRAJ KISHORE TRIPATHY): (a) The import of ship-breaking scrap during the year 2001-02 has increased marginally as would be seen from the Ship-breaking statistics for the last 4 years given below:

Year	LDT (In million tones)
1998-99	3.368
1999-2000	3.063
2000-2001	2.205
2001-2002	2.900

(b) There has been general increase in world Ship-breaking with the availability of more ships for breaking. The entrepreneurs are free to import ships for breaking and market forces of demand, supply and availability, price etc determine the quantity of import.

(c) As re-rollable scrap obtained from ship-breaking is a substitute to semis produced by the main producers, the flow of Ship-breaking scrap affects the steel industries but to a limited extent.

(d) The Government has increased the basic custom duty on ships imported for breaking from 5% to 15% with exemption of CVD & SAD.
